

OBJECTIVE

I am looking for a position as a software developer in the organization where I can utilize my skills at understanding and build software and the opportunity to upgrade my knowledge about the new and emerging trends in the sector.

SUMMARY

I am currently a Technical Lead at ESPXMEDIA a company in SG providing streamming platform for business. The main task is to manage the system, analyze customer requirements, bridge the connection between developer and client.

Also, I went through many position (frontend, backend, devops) so an overview of the system. Helps analyze and correct judgment Went through positions from FE to BE and devops. Should have an overview of the system.
